NRC PLANT STATUS REPORT TO CHANGE FORMAT

As part of its effort to address the Year 2000 problem, the computer software that generates the Nuclear Regulatory Commission's daily event and plant status reports is being modified. The content will not be changed.

Most users who access these reports through the NRC's Internet Homepage will notice only minor formatting changes when the transition occurs October 28. Anyone who experiences difficulty accessing these reports during the transition can call the Office of Public Affairs at (301) 415-8200 or send an e-mail to: opa@nrc.gov for assistance.
