

TELEPHONE DIRECTORY

UNITED STATES NUCLEAR REGULATORY COMMISSION

Office of the Chief Information Officer

NUREG/HR-0046, Rev 29

March 2000

Emergency Telephone Numbers for Headquarters

Security Guard 24-Hour Emergency Number 301-415-2000
(Police, Fire, Bomb Threat)

First Aid/NRC Health Center 301-415-8400

Serious Illness or Injury
Emergency Care 9-911

THEN NOTIFY: Security 301-415-2000
and the
NRC Health Center 301-415-8400

Callers in the state of Maryland are required to use 10-digit telephone numbers (area code + number) for local calling. However, dialing within OWFN and TWFN in Headquarters requires only 7 digits. (See details in the "Telephone System Guide" on page xi of this directory.)

Report changes to a name, organization, building and room number, mail stop, office telephone number by submitting NRC Form 15, "Employee Locator Notification," (see sample form inside back cover) or by sending an electronic-mail message to e-mail address TELDIR. All other changes (e.g., home telephone number, contact in case of emergency) must be reported by submitting an NRC Form 15. **NRC Form 15 is also available on INFORMS.**

NRC will no longer publish the Telephone Directory in paper. It is now available on the agency's web site at <http://www.nrc.gov/NRC/phone.html>. Members of the public who wish to obtain a paper copy at a fee of 10 cents per page may contact the NRC Public Document Room (PDR) at 202-634-3273 or 800-397-4209.

Official Headquarters Mail

The official U.S. Postal Service mailing address for the U.S. Nuclear Regulatory Commission required on all incoming communications is:

**U.S. Nuclear Regulatory Commission
ATTN: (Recipient's Name and Organization)
Mail Stop (Recipient's Mail Stop)
Washington, DC 20555-0001**

This mailing address is applicable to all NRC organizational locations at NRC Headquarters. Do not use any other NRC address for Headquarters mail. Include the specific mail stop and organizational identifier on the face of all communications to NRC; these are available in this directory or from the Headquarters operator on 301-415-7000.

All incoming communications that are hand-carried to any NRC Headquarters building by a private deliv-

ery carrier should be addressed to the building location and must include the specific mail stop and unique organizational identifier where applicable.

For example, incoming mail or packages to be hand-carried to the White Flint locations should be addressed as follows:

**U.S. Nuclear Regulatory Commission
ATTN: (Recipient's Name and Organization)
Mail Stop (Recipient's Mail Stop)**

**One White Flint North
11555 Rockville Pike
Rockville, MD 20852-2738**

or

**Two White Flint North
11545 Rockville Pike
Rockville, MD 20852-2738**

Classified Mailing Addresses

The following, provided for your reference records, is a consolidated listing of Classified Mailing Addresses (CMA) to be used for the transmission of classified information. NRC Management Directive 12.2, should be referred to prior to any transmissions for additional information (e.g., to ensure that document preparation including correct markings have been

met). It is the responsibility of the sender to assure that no information classified higher than that which has been approved by the Division of Facilities and Security is transmitted. Any questions regarding these addresses or any other CMA should be directed to the Physical Security Branch at 301-415-7407.

Telephone System Guide

GENERAL INFORMATION

NRC Telephone Numbers

Most NRC Headquarters offices are located in Rockville, Maryland and have area code 301 telephone numbers. The NRC Public Document Room located in Washington, D.C. has area code 202 numbers.

Callers in the state of Maryland are required to use 10-digit telephone numbers (area code + number) for local calling. However, dialing within the Washington Interagency Telecommunications System (WITS) network at NRC (i.e., within OWFN and TWFN) and any other federal buildings that have WITS requires only 7 digits. The NRC Warehouse, Public Document Room, and NRC numbers outside the Washington metropolitan area (e.g., the Regions) are not on WITS. NRC Emergency Operations Center numbers beginning with 816 and 951 are likewise not on WITS. The use of 10-digit numbers is required when placing calls to, or receiving calls from, these non-WITS numbers.

Emergency Telephone Numbers

The NRC Emergency Operations Center Telephone numbers are 301-816-5100, 301-951-0550, and 301-415-0550. Collect calls will be accepted only if the caller is reporting a nuclear emergency.

Recording or Monitoring Telephone Conversations

Except for calls recorded at the NRC **Emergency Operations Center**, no telephone call will be monitored or recorded by NRC personnel without the specific knowledge and consent of all parties to the call.

NRC Switchboards

The NRC Headquarters switchboard located in the Telecommunications Message Center (TMC) at T-4 C8 operates from 6 a.m. to 11 p.m. Eastern Time, 365 days a year, and provides locator, teleconferencing, facsimile, and Telecommunications Device for the Deaf (TDD) services. For emergencies, the NRC Operations Center can be contacted at 301-816-5100, 24 hours a day, seven days a week. Each NRC Regional Office has a switchboard that operates during normal business hours. During nonbusiness hours (evenings, weekends, and Federal holidays), callers to the Regional switchboards reach a taped message that gives

them the Headquarters Emergency Operations Center telephone number or the option to leave a recorded message.

The following are the numbers for contacting the NRC switchboards:

Headquarters Switchboard	301-415-7000
From Headquarters	
White Flint Complex	0 or 415-7000
Toll-free	1-800-368-5642
TDD	301-415-5575
Regional Switchboards	
Region I	610-337-5000
Toll-free	1-800-432-1156
Region II	404-562-4400
Toll-free	1-800-577-8510
Region III	630-829-9500
Toll-free	1-800-522-3025
Region IV	817-860-8100
Toll-free	1-800-952-9677

Teleconferencing Service

Conference services (also known as a Conference Bridge) are available to allow up to 150 conferees to participate in interoffice, local, long distance, and international calls.

The following three teleconferencing options are available to provide flexibility to employees and make optimum use of the available teleconferencing resources.

Office Telephones for Small Conferences

NRC Headquarters office telephones with the AT&T or Lucent ISDN label can be used to setup small teleconferences at any time without intervention by NRC telephone switchboard operators. All Headquarters ISDN telephones have three-way conferencing capability. ISDN telephones used by Headquarters secretaries have been enhanced to provide six-way conferencing.

In-House Teleconferencing Service for Large Conferences

Large (up to 120 participants), currently-scheduled teleconferences will continue to take place using the in-house teleconferencing system. NRC telephone switchboard operators initiate these conferences on pre-established schedules.

External (FTS2000) Teleconferencing Service for Large Conferences

For new, large (up to 150 participants) teleconferences, the FTS2000 Teleconferencing service

Telephone System Guide (continued)

provided to federal agencies by the General Services Administration (GSA) is being offered. Using this service, staff can establish teleconferences conveniently from their desk without going through the telephone switchboard operator. An FTS2000 (AT&T) calling card, which is required in order to set up an FTS2000 conference call, can be requested using NRC Form 768. NRC Switchboard operators will set up FTS2000 conference calls until staff requesting calling cards receive them (usually about three weeks).

In-house and FTS2000 teleconferencing services should be reserved in advance to allow sufficient time to schedule the conference. A minimum of 24 hours advance notice is preferred. All participants of a conference call are given an assigned passcode, time of the conference, and the telephone number to dial.

In-house conferences may be scheduled by calling the Headquarters Conference Attendant on 301-415-7026.

Facsimile (FAX) Service

Unclassified messages, such as FAX, can be sent or received by the NRC Headquarters TMC/switchboard located in T-4 C8. The switchboard FAX numbers are: 301-415-7010 and 301-415-7020.

The NRC Headquarters telephone operator will contact the recipient of a FAX message.

Facsimile and secure facsimile services and equipment are available throughout Headquarters and the Regions. Locations and telephone numbers are listed in the Facsimiles section of this telephone book. (See "Facsimiles—Headquarters, Regions and Other Sites, and Plant Sites.")

Telecommunications Service

At Headquarters, telecommunications (e.g., telephone, FAX machine, pager, modem, voice mail) problems should be reported to the Customer Support Center (CSC), Office of the Chief Information Officer (OCIO) at 415-1234. Requests for telecommunications equipment, and installation, relocation, or removal of telephones should be submitted on an NRC Form 768, through the respective Office Information Technology (IT) Coordinator to the CSC, Mail Stop T-4 F17. In Regional Offices, the Division of Resource Management should be contacted for all telecommunications problems and services.

Voice Mail Service

A state-of-the-art voice mail system serves the NRC Headquarters, Regions I, III and IV, and Technical Training Center (TTC). The following are toll-free numbers for retrieving voice mail messages by employees on travel. Note that for Headquarters and Regional locations, the 7-digit numbers for toll-free access are the same as the respective local numbers for retrieving messages.

Headquarters	1-888-415-3888
Region I	1-888-337-6980
Region III	1-888-829-9560
Region IV	1-888-860-8175
TTC	1-800-686-4099

In addition to the message sending and receiving capability, the following convenient applications have been implemented at the NRC for announcements and FAX-back services:

AMAP Directions—1-888-415-AMAP (2627). Provides maps and directions to NRC locations via FAX.

Commission Meeting Announcements—1-800-952-9674. Provides schedules for Commission meetings.

NRC Daily Status Announcements—301-415-4NRC, or toll-free 1-888-415-4NRC (4672). Provides daily status of NRC Headquarters operation, including closure due to inclement weather or other emergencies.

Public Document Room FAX-on-Demand—1-800-397-4209. Provides frequently requested PDR forms and information packets via fax.

Human Resources Smartline—1-800-952-9678. Provides NRC vacancy announcements via FAX or U.S. mail.

Small Business and Civil Rights Information Line—1-800-903-SBCR (7227). Provides information for small business contractors.

The Infrastructure Operations Branch, Information Technology Infrastructure Division (ITID), OCIO, may be contacted on 301-415-7152 for more information on these voice mail applications.

Official Long-Distance Calls

Federal agencies are required to use the General Services Administration's Federal Technology Services (FTS2000) network for official (domestic) long-distance telecommunications services. Other long-distance services may be used during

Telephone System Guide (continued)

emergency situations; however, the FTS2000 network is the NRC's primary long-distance carrier for normal long-distance dialing (9 + 1 + area code + number), and must be used in lieu of commercial services. For AT&T FTS2000 24-hour customer service and trouble reporting, call 1-800-545-4FTS (1-800-545-4387).

Calls Outside the Continental United States

Calls to Alaska, Hawaii, Puerto Rico, and the Virgin Islands may be made via the FTS2000 system.

Calls from Headquarters to other points outside the Continental U.S. may be made by calling the Headquarters switchboard. Employees who make official international calls from home, while on travel, or frequently from work should use an international calling card issued by the agency.

One may request an NRC international calling card by submitting an NRC Form 768 through the respective Office IT Coordinator to the Customer Support Center, Mail Stop T-4 F17.

Personal Long-Distance Calls

NRC Directive 2.3, Part II, "Telecommunications," lists conditions for the personal use of Government phones.

Calls placed over commercial services may be charged to a personal calling card or home number. Employees who need to make personal long-distance calls can make the call from their desks by calling the toll-free access number for their personal calling card or home long-distance service provider.

Collect Calls

Collect calls and charges to NRC Headquarters telephone numbers are prohibited except under emergency circumstances or with the prior authorization from the Chief of the Infrastructure Operations Branch, ITID/OCIO. Requests for such authorization should be submitted with full justification by memorandum to T-6 F33.

The NRC Headquarters operator will not accept collect calls. Persons calling the NRC to make emergency reports may call the Emergency Operations Center at 301-816-5100, which will accept collect calls.

Official Calls on Travel

NRC employees on official travel may use an FTS2000 calling card for official business. NRC's general-purpose toll-free numbers listed earlier may also be used to make long-distance calls to the NRC. NRC employees may use commercial long-distance services while on official travel, pay for the call, and include the cost on the travel voucher with appropriate supporting documentation.

One may request an NRC FTS2000 calling card by submitting an NRC Form 768 through the respective Office IT Coordinator to the Customer Support Center, Mail Stop T-4 F17. For using the FTS2000 calling card, the preferred dialing sequence is as follows:

- (1) Dial 1-800-4 FEDCRD
(1-800-433-3273)
- (2) Dial area code + number
- (3) Enter card number

To place another call, do not hang up, but press #, and after the AT&T announcement, dial area code + phone number.

Telephone System Guide (continued)

Callers in the state of Maryland are required to use 10-digit telephone numbers (area code + number) for local calling. However, dialing within OWFN and TWFN in Headquarters requires only 7 digits. (See details in the "Telephone System Guide" on page xi of this directory.)

Report changes to a name, organization, building and room number, mail stop, office telephone number by submitting NRC Form 15, "Employee Locator Notification," (see sample form inside back cover) or by sending an electronic-mail message to e-mail address TELDIR. All other changes (e.g., home telephone number, contact in case of emergency) must be reported by submitting an NRC Form 15. NRC Form 15 is also available on INFORMS.

Secure Telecommunications

Secure Telephones

Secure Telephone Units (STU-III) are used to conduct classified or sensitive unclassified conversations between NRC Headquarters, Regional offices, and other government agencies. Below is a listing of locations and holders of STU-III phones at NRC. NRC also has portable and cellular STU-III available. For further information regarding STU-III, contact the Information Security Branch on 301-415-2264.

Secure Teletype and Facsimiles

NRC's Secure Communications Center is on-line with the Department of Defense's Automatic Digital Network (AUTODIN) system to receive and transmit classified or sensitive unclassified teletype messages worldwide. The Communications Center also has three secure facsimile machines available to receive and transmit classified information, as well as Crisis Management Network (CMN) capability. For more information or assistance, contact the Information Security Branch on 301-415-2264.
