NRC TO MEET WITH TXU ELECTRIC TO DISCUSS SAFETY PERFORMANCE AT COMANCHE PEAK

The U.S. Nuclear Regulatory Commission staff will meet with officials of TXU Electric on Thursday, June 21, to discuss the results of NRC's annual assessment of safety performance at Comanche Peak, a nuclear power plant near Glen Rose, Texas.

The meeting will be held at 1:30 p.m. in the Comanche Peak Support Service Building, Training Room, on 8th Ave. The public is invited to observe the meeting. NRC officials will be available after the meeting to answer questions.

A letter sent from NRC Region IV to TXU Electric, which addresses plant safety performance during the previous year and forms the basis of the meeting discussion, is available from the Region IV Office of Public Affairs or on the NRC web site at: <http://www.nrc.gov/OPA/ppr/>. Current safety performance information for Comanche Peak is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/CP1/cp1_chart.html.
