The U.S. Nuclear Regulatory Commission staff will meet with representatives of Wolf Creek Nuclear Operating Co. on Thursday, April 18, to discuss the results of the agency's annual assessment of safety performance at Wolf Creek Nuclear Station. The facility is located near Burlington, Kansas, and is operated by WCNOG.

The meeting, which will be open to the public for observation, is scheduled to begin at 7 p.m. at Coffey County Courthouse, 110 South 6th St., Burlington. NRC staff will be available before the meeting is adjourned to answer any questions from the public.
