This open house is intended to provide an opportunity for interested members of the public and staff from other Federal, State, and local agencies to interact with the NRC staff in an informal information exchange.

The NRC is gathering information necessary to prepare an Environmental Impact Statement (EIS) in support of the proposed renewal of the operating license for Nine Mile Point Nuclear Station, Units 1 and 2. Please note that if you wish to provide formal comments regarding the scope of the environmental review for Nine Mile Point Nuclear Station, Units 1 and 2, they must be presented at either session of today's transcribed public meetings or provided in writing or electronically by October 11, 2004. Comments received after this date will be considered while developing the draft EIS if it is practical to do so, but the NRC staff is able to assure consideration only for comments received on or before October 11, 2004. Written comments on the scope of the EIS should be sent to:

Chief, Rules and Directives Branch
Division of Administrative Services
