Division of Risk Assessment  
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF AUGUST 23, 2007, CATEGORY 2 MEETING ON  
FREQUENTLY ASKED QUESTION PROCESS REGARDING NATIONAL  
FIRE PROTECTION ASSOCIATION STANDARD 805

On August 23, 2007, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting, via teleconferencing, with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association Standard 805. Licensees introduced and discussed revised versions of three FAQs (06-0008, 06-0022, and 06-0024) at this meeting and introduced one new FAQ (07-0036). The NRC staff presented written comments on two FAQs (06-0005 and 06-0011). Licensees and NRC staff also discussed the remaining open FAQs. The staff and licensees achieved closure on one FAQ (06-0024). Regulatory Issue Summary 2007-19, which describes the closure process for FAQs, was also briefly discussed. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

All participants agreed that the next monthly meeting should occur, via teleconferencing, on September 20, 2007, in conjunction with the Fire Protection Information Forum.

The new FAQ, revised FAQs, and written comments introduced at the meeting are available in the Agencywide Documents Access and Management System. The accession number for the new FAQ is ML072320155. The accession numbers for the revised FAQs are ML072400065, ML072340055, and ML072340062. The accession numbers for the staff comments are ML072400021 and ML072400023. The July NEI NFPA 805 Task Force FAQ Log, a meeting handout, is available at ML072400025. Two other handouts are available at ML072400043 and ML072400047.

A list of meeting attendees is enclosed with this memorandum.
