NRC ANNOUNCES NEW LISTSERV FOR OPERATING REACTORS CORRESPONDENCE

The Nuclear Regulatory Commission is now distributing publicly available outgoing correspondence on operating nuclear plants via electronic notification through a listserv. Those NRC licensees, stakeholders and members of the public who have been on NRC distribution lists will now receive documents by emails. Others may subscribe to the service at <http://www.nrc.gov/public-involve/listserver/plants-by-region.html>.

“Sending documents via email is another way we are keeping the public current on nuclear plant news and information,” said Joseph Giitter, Director of Division of Operating Reactor Licensing.

The listserv includes correspondence on operating license amendments, relief requests, exemptions, requests for additional information, and public meeting summaries. You may choose correspondence pertaining to one plant or several plants.

###

News releases are available through a free *listserv* subscription at the following Web address: <http://www.nrc.gov/public-involve/listserver.html>. The NRC homepage at www.nrc.gov also offers a SUBSCRIBE link. E-mail notifications are sent to subscribers when news releases are posted to NRC's Web site.
