

Scientific Analysis/Calculation Error Resolution Document

QA: QA
Page 1 of 1

Complete only applicable items.

INITIATION

1. Originator: Peter Persoff	2. Date: April 7, 2008	3. ERD No. ANL-NBS-HS-000042 ERD 01
---------------------------------	---------------------------	--

4. Document Identifier: ANL-NBS-HS-000042 REV 01 00 PP 04/21/08	5. Document Title: Analysis of Hydrologic Properties Data
--	--

6. Description of and Justification for Change (Identify applicable CRs and TBVs):

I BACKGROUND INFORMATION

This ERD resolves CR 10499 and CR 11548. Both these CRs identify the same error in the identification of an output DTN from this report.

In Section 8.4, change the last entry under "Output Data" from LB0408REVUXPRP.001 to **LB0408REVUZPRP.001**. This ERD also corrects the following errors:

In Section 7.1, paragraph 1, line 5, change TEMS to TDMS.

Change *lecan97.xls* to ***lecaïn97.xls*** in Section 6.1, line 6, and in Appendix A, pages A-1 and A-22 through A-25.

II Inputs and Software

No inputs or software are needed for this ERD.

III Impact Evaluation

The correction of the output DTN number in Section 8.4 enhances traceability of the information but does not affect the conclusions of the analysis report, nor does it affect any downstream product.

IV Analysis and Results

Neither the content nor the DTN number of the output data are changed, only the listing in Section 8.4. Therefore there is no impact to any downstream product.
