Dear Mr. Stinson:

This letter refers to our public management meeting conducted at the Sam Nunn Atlanta Federal Center, 61 Forsyth St., SW Suite 23T145, Atlanta, Georgia 30303, on November 19, 2009. The purpose of this meeting is to discuss your analyses of extent of condition, root causes, and corrective and preventive actions, implemented or planned, for the construction issues identified in Inspection Report 70-3098/2009-010. The meeting was beneficial and provided the NRC with information regarding the various initiatives taken by MOX Services to address the civil structural issues noted in Inspection Report 70-3098/2009-010. Additionally, the meeting afforded members of the public and media representatives the chance to ask questions regarding these issues at your facility.

The names of participating attendees at the meeting and a copy of the presentation used by MOX Services are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency wide Document Access and Management System (ADAMS).
