SUBJECT: SUMMARY OF APRIL 22, 2010, CATEGORY 2 MEETING REGARDING  
THE NATIONAL FIRE PROTECTION ASSOCIATION STANDARD 805  
FREQUENTLY ASKED QUESTION PROCESS

On April 22, 2010, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting, via teleconferencing, with stakeholders and the public to discuss Frequently Asked Questions (FAQs) at plants that are adopting National Fire Protection Association (NFPA) Standard 805. Licensees and the NRC staff discussed the list of currently open FAQs. The staff noted that two FAQs (08-0051 and 09-0057) had been closed via NRC closure memo since the previous meeting. The participants determined that both industry stakeholders and the NRC staff needed to continue to work on the remaining open FAQs.

NRC staff presented updated schedules for the review of the pilot plants' license amendment requests.

Participants agreed that the next FAQ meetings would take place on May 27, 2010, via teleconferencing, and on June 23, 2010, in person. The July meeting was tentatively scheduled for July 22, 2010.

The meeting handouts are available in the Agencywide Documents Access and Management System. The accession numbers for the FAQ closure memos for FAQs 08-0051 and 09-0057 are ML100900052 and ML100960568. The details of the resolution of public comments for FAQ 08-0051, a meeting handout, is available at ML100820346. The accession number for the schedule update is ML101160051. The March NEI NFPA 805 Task Force FAQ Log, a meeting handout, is available at ML100810199. The NRC NFPA 805 FAQ status and history document is available at ML101160055.

A list of meeting attendees is enclosed with this memorandum.
