Dear Mr. Trice:

This letter refers to our public meeting conducted at the Hydrogen Research Center in New Ellenton, South Carolina on July 24, 2012. The purpose of the meeting was to discuss the status of the Mixed Oxide Fuel Fabrication Facility construction project, including major milestones and potential challenges that may affect the project schedule. The meeting was beneficial and provided the NRC with information regarding the various initiatives taken by MOX Services regarding the Mixed Oxide Fuel Fabrication Facility construction project. Additionally, the meeting afforded members of the public the chance to ask questions regarding your facility and/or the NRC construction inspection program.

The names of participating attendees at the meeting and a copy of the presentations used by MOX Services and the NRC are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency wide Document Access and Management System (ADAMS).
