Dear Sir or Madam:

On March 12, 2012, the Nuclear Regulatory Commission (NRC) issued Reference 1 to all power reactor licensees. Enclosure 4 of Reference 1 contains specific requested actions, requested information, and required responses associated with Recommendation 2.3 for flooding walkdowns. Nebraska Public Power District (NPPD) confirmed in Reference 2 that it would use the flooding walkdown procedure (Nuclear Energy Institute 12-07, Guidelines for Performing Verification Walkdowns of Plant Flood Protection Features) as endorsed by the NRC as the basis to conduct the walkdowns and develop the needed information at Cooper Nuclear Station (CNS).

Pursuant to Required Response 2 of Reference 1, Enclosure 4, NPPD is providing the Flooding Walkdown Report for CNS in the Enclosure.

This letter contains new regulatory commitments which are identified in the Attachment.
