**SUBJECT: SCHEDULE REVISION AND PROJECT MANAGER CHANGE FOR THE
REVIEW OF THE FERMI 2 LICENSE RENEWAL APPLICATION (TAC NO.
MF4222)**

Dear Mr. Kaminskas:

By letter dated April 24, 2014, DTE Electric Company submitted an application pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51 and 10 CFR Part 54, to renew operating license NPF-43 for Fermi 2, for review by the U.S. Nuclear Regulatory Commission (NRC or the staff). This letter is to inform you of a change in the safety review schedule for the Fermi 2 license renewal review.

Regarding the staff's safety review, the regional inspection activities associated to the Inspection Procedure 71002, "License Renewal Inspection", have been moved from March 9, 2015 to April 13, 2015, to avoid a conflict in staff's availability for conducting the inspection, as previously communicated (Agencywide Documents Access and Management System Accession No. ML15022A174).

Also, on February 6, 2015, the Atomic Safety and Licensing Board admitted three contentions related to the Fermi 2 license renewal review proceedings. The new date for the issuance of the renewed license is "To Be Determined" (TBD) pending the results of the hearing proceedings.

In addition, this letter provides notification of a change to the Environmental Project Manager assigned to Fermi 2 license renewal review. Effective February 9, 2015, Ms. Elaine Keegan became the Environmental Project Manager for Fermi 2.

All correspondence for the Project Manager associated with the environmental review for the Fermi 2 license renewal should be sent to:

Ms. Elaine Keegan, Senior Project Manager
Projects Branch 2
Division of License Renewal
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
