

U.S. NRC

UNITED STATES NUCLEAR REGULATORY COMMISSION

Protecting People and the Environment

**Meeting Between the U.S. Nuclear
Regulatory Commission Staff and the
Nuclear Energy Institute to Discuss
Current License Renewal Topics**

March 11, 2016

Open Action Items

NRC/NEI: To keep each other apprised on the status and progress made in the SLR review process.

NRC: Deep Dive Research & Development Activities – The Deep Dive meetings will be conducted using the existing MOU process between the Office of Regulatory Research (RES) and DOE.

Open Action Items cont

NRC/NEI: Continue discussion of SLR Optimization Project.

NRC: For future quarterly meetings staff will upload presentation slides to the public website prior to meetings for members of the public at remote locations.

NEI: EPRI identified 26 reports that are required to be updated to support subsequent license renewal activities.

Open Action Items

NEI: Will provide feedback to the NRC staff on whether the link of GALL Rev 0 line numbers to the GALL-SLR line numbers need to be shown in SLR Excel spreadsheet (GALL master), in addition to being shown in the SRP-SLR appendix.

NEI: Developing the project plan and expects 5 years to complete the review.

Closed Action Items

NEI: Industry's Letter of Intent on the Lead Plants.

NRC: Issued the draft SLR guidance documents, and had two public meetings.

NRC: Developed an SLR public website to capture SLR guidance documents.

Further discussion(s) on NEI 14-13 and NEI 14-12.

NRC and industry will coordinate efforts to prepare for the ACRS briefing on SLR in November 2015.

Closed Action Items

NRC: To develop an SLR blog to better communicate with all stakeholders on matters related to SLR.

For the NEI SLR Roadmap, NRC suggested to embed live links to connect the roadmap to other relevant sites.

Open invitation to NRC on the upcoming ORNL trip in July.

NRC and industry will coordinate efforts to prepare a Commissioner's Assistant note on SLR.
