PART I.D -- COMMENTS

The FOIA does not require an agency to create a record that would be responsive to a FOIA request, if that record does not exist at the time the agency receives the request. The NRC does not maintain an employee email directory. However, in response to a recent FOIA request that our office processed, the NRC located a record that, among other items of information, includes the email addresses of NRC staff. As this record includes the information you are requesting, we are providing it to you.
