CALLAWAY PLANT UNIT 1  
UNION ELECTRIC CO.  
RENEWED FACILITY OPERATING LICENSE NPF-30  
CORRECTED SUPPLEMENT TO  
2019 ANNUAL RADIOACTIVE EFFLUENT RELEASE REPORT**

- Reference:**
- 1) Ameren Missouri letter ULNRC-06577, "2019 Annual Radioactive Effluent Release Report," dated April 30, 2020 (Accession No. ML19120A271).
  - 2) Ameren Missouri letter ULNRC-06594, "Supplement to 2019 Annual Radioactive Effluent Release Report," dated July 28, 2020.

Per the letter identified as Reference 1, Union Electric Company (Ameren Missouri) submitted the 2019 Annual Radioactive Effluent Release Report (ARERR) for the Callaway Plant. However, as noted in Reference 1, due to extenuating circumstances, several data tables within the report were noted as being incomplete. The tables were completed and incorporated into a supplemental report (attached to the letter identified as Reference 2) that was submitted within 90 days, in accordance with the guidance of Regulatory Guide 1.21 (revision 2). However, after Reference 2 was submitted, errors were identified in the supplemental report. The corrected supplemental ARERR is therefore being provided per this submittal (as enclosed), which supersedes the previously submitted supplemental report.

The ARERR is submitted in accordance with Section 5.6.3 of the Callaway Plant Technical Specifications and Section 5.1.c of Appendix A to the HI-STORM UMAX Certificate of Compliance.

This letter does not contain new commitments.

If there are any questions, please contact Vince D. Miller at (314) 225-1558.

Sincerely,

A handwritten signature in black ink, appearing to read "Fred Bianco". The signature is stylized and cursive, with the first name "Fred" and last name "Bianco" clearly visible.
