DHEC Response to HF Spiking Station #2 Assessment Report

Hard Copy Received 3/14/19
DP Joyner

March 7, 2019

Ms. Diana P. Joyner
Principal Environmental Engineer
Environmental, Health & Safety Operations
Columbia Fuel Fabrication Facility
5801 Bluff Road
Hopkins, SC 29061

Re: **Response to HF Spiking Station #2 Assessment Report**
Westinghouse Electric/Columbia Plant
HF Spiking Station #2 Assessment Report received on November 30, 2018
Richland County
File # 51377

Dear Ms. Joyner,

The South Carolina Department of Health and Environmental Control (Department) has reviewed the referenced assessment report. The following comments were generated from this review:

1. The disposal soil manifest needs to be submitted to the Department once the task it completed.
2. Based on the March 7, 2019 meeting, the Department approves the backfilling of the excavated area with Flow-fill.

Please submit the manifest once the soil is properly disposed of. Please feel free to contact me with any questions or comments at (803) 898-0722 or at kuhnkm@dhec.sc.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kuhn", is written over a light blue horizontal line.

Kimberly M. Kuhn, Project Manager
State Voluntary State Cleanup Program
Site Assessment, Remediation & Revitalization Division
Bureau of Land and Waste Management
