**Plant Name:** Vogtle Unit 4  
Combined  
License

**Unit Number:** VOG4

## Key for Inspections, Tests, Analyses, and Acceptance Criteria (ITAAC) Status Report

The following describes each column in the report:

**ITAAC Index No.:** A sequential number assigned to each ITAAC in Appendix C of the combined license (COL) at issuance. Because ITAAC may be added, deleted, or consolidated through license amendments, the highest ITAAC index number may not equal the total number of ITAAC. An ITAAC index number may also be out of numerical sequence from the current COL due to ITAAC amendments after initial COL issuance.

**ITAAC No.:** A number assigned to an ITAAC based on the Section of Appendix C of the COL in which the ITAAC appears.

**ITAAC Notification Type (ICN, IPCN, UIN):** The three types of licensee ITAAC notifications listed in this report:

- **ICN:** ITAAC closure notifications (ICNs) submitted pursuant to 10 CFR 52.99(c)(1),
- **IPCN:** ITAAC post-closure notifications (IPCNs) submitted pursuant to 10 CFR 52.99(c)(2), and
- **UIN:** uncompleted ITAAC notifications (UINs) submitted pursuant to 10 CFR 52.99(c)(3).

**ITAAC Notification:** The Agencywide Documents Access and Management System (ADAMS) accession numbers for the licensee's ITAAC notifications.

**NRC Checklist (VEF or UINC):** The Agencywide Documents Access and Management System (ADAMS) accession numbers for the NRC staff's verification and evaluation forms (VEFs) and Uncompleted ITAAC Notification Checklists (UINCs). A VEF documents the NRC's review of ICNs and IPCNs. A UINC documents the NRC's review of UINs.

**ITAAC Notification Review Status:** The status of the NRC's review of the ITAAC notification.

- "Unconditionally Verified as Completed" or "Federal Register Notice Published" denote when the NRC has found an ICN or IPCN is acceptable. The licensee has successfully completed the closure of these ITAAC.
- "Sufficient Information" denotes when the UIN sufficiently describes the proposed methodology for closing the ITAAC. UIN reviews are not based on actual performance of the ITAAC, the acceptance criteria results, the completion of NRC inspections, or the resolution of NRC inspection findings. The NRC considers these matters during corresponding ICN review.

**Federal Register No. or NRC Letter:** The Federal Register No. is the citation for periodically-issued Federal Register notices of NRC determinations that ITAAC have been successfully completed. An NRC letter explains to the licensee why the NRC has determined that an ITAAC notification is not acceptable.

**NRC Construction Inspection Report(s):** ADAMS Accession No. for reports documenting ITAAC-related construction inspections.

**NRC Vendor Inspection Report(s):** ADAMS Accession No. for reports documenting ITAAC-related vendor inspections.
