

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 24, 2023

ALL FEDERALLY RECOGNIZED INDIAN TRIBES

NOTIFICATION OF THE PUBLIC OUTREACH MEETING ON THE FORTHCOMING
TERRAPOWER CONSTRUCTION PERMIT APPLICATION (STC-23-071)

Purpose: To provide [notification](#) to all Federally recognized Indian Tribes of the U.S. Nuclear Regulatory Commission's (NRC's) public outreach meeting with TerraPower to be held November 7, 2023, 1:00 PM to 8:00 PM MT in Kemmerer, Wyoming.

Background: By letter dated August 2, 2023 ([ML23214A199](#)), TerraPower, LLC updated the NRC on its plan to submit the Kemmerer Power Station Unit 1 Construction Permit Application (CAP) in March 2024.

Discussion: This is an information meeting where the NRC staff will discuss the safety and environmental review processes for the review of the forthcoming TerraPower CPA for the Sodium demonstration reactor. A key topic to be discussed is how and when the public may participate in the NRC review process, if desired. Questions about the NRC's processes for the CPA review are encouraged.

If you have any questions about the meeting, please contact the individual named below:

POINT OF CONTACT: Mallecia Sutton
TELEPHONE: (301) 415-0673

E-MAIL: Mallecia.Sutton@nrc.gov

A handwritten signature in black ink, appearing to read "Morgan, Nadiyah".
